## The General And The Overseer: A Match Made In Heaven?

The Muhammadu Buhari and Yemi Osinbajo ticket that won the 2015 General elections was a peculiar one in that it represented the different strengths and weaknesses of the Nigerian society.

The balance in the Buhari/Osinbajo ticket was commendable. On the plus side the ticket represented Nigeria's two most recognized religions - Christianity and Islam , it also reflected the North/South alliance. The religious and cultural insecurities of Nigerians were also reflected on the ticket.

Almost two years in, it has been an interesting journey. The strengths and the weakness of the Buhari/Osinbajo ticket have been laid bare. In many aspects both men are opposites while exactly alike in so many ways.

Considering the reduced attacks by Boko Haram in Northern Nigeria, one would be tempted to say that the General and the Overseer make a good team. Buhari's military track record has helped rally a demoralized army. But did the general open too many fronts of conflict? Could the Niger Delta issue have been handled differently to prevent further economic woes? In the absence of the general, the overseer has taken a softer approach with the issue, visiting the region a couple of time already to meet with stakeholders.

## Why A Sexual Health Screen Is The Best Valentine's Gift Ever

There are plenty of people who would argue that a sexual health screen for people in a relationship might be the worst gift to give for Valentine's Day. But when you really think about it, knowing the health status of yourself and your partner makes it easier to plan a future, and become even closer as a couple.

### The Meaning of Valentine's Day For Couples

The simple meaning of Valentine's Day is to celebrate the love between two people. Whether it is a love that burned bright for years or a love that is just being revealed, it is a day to celebrate love. Valentine's Day is also the perfect day to confirm the fidelity you and your partner share, or to put suspicions to rest. Those that have been affected would absolutely agree that a sexual health screen on Valentine's Day is the perfect time to confirm true love, or find out that it is time to move on. A sexual health screen reveals infidelities, or it can confirm monogamy. Determining the health of your relationship, regardless of what that health may be, can be a blessing on Valentine's Day.

## Valentine's Day: 4 Key Questions You Should Ask Yourself

Valentine's Day is generally set aside as the one day where couples and relationships are put center stage and into the spotlight. Not only is Valentine's Day a time to enhance your relationship or prove your loyalty to your true love, but it is also a time to re-evaluate your relationship and ask yourself some difficult questions.

### How Much Longer do I Live with my Secret?

There are many people out there who stay in unhealthy relationships for all of the wrong reasons. A man who knows he is gay has been trying to keep up appearances with his female partner for years, and that relationship is unfair to both of them. Women in an abusive relationship feel trapped, but they often do nothing to take back control of their lives.

## 5 Legal Ways To Make Money On Valentine's Day

Valentine's Day is nice for couples, but it can be tough for single people who have to watch all of the snuggling going on around them. Instead of being bitter because you are single on Valentine's Day, you should take advantage of the situation and make some extra money. There are plenty of great and legal ways that you can turn your spare time on Valentine's Day into cash in your pocket.

### Flower Delivery Service

All of the flower shops in your area already have delivery services, but that leaves out the poor guys who cannot make it to the store in time to get flowers to their true love. You can start a one-day delivery service that will run to a local store that sells flowers, buy as many flowers as your clients need, and then deliver those flowers to their associated beloveds.

## Valentine's Day: Keep Your Love Life Off LinkedIn

Social media has many purposes and it offers a great deal of value to people all over the world. The problem some people run into with social media is that they are unable to understand the real purpose of individual platforms. Not every platform is designed to be a sounding board for your Valentine's Day frustrations or success stories, and nowhere is that more evident than LinkedIn.

The people who are successful on LinkedIn have one simple rule; keep your personal life off the LinkedIn platform. That is especially true when dealing with issues that are pertinent to Valentine's Day. LinkedIn is not the place to condemn the one romantic who broke your heart or share the gritty details of your conquests. In order to understand the purpose of LinkedIn, it helps to understand why it is not the place to discuss details of your love life.

# Google Pixel: The iPhone Killer?

With the epic failures of Android lines such as the Galaxy, it seemed like the path was clear for the iPhone to re-establish its dominance over the smartphone industry. But when Google announced it was releasing its Pixel smartphone, consumers decided to wait and see what Google had to offer.

It turns out that Google updated the Android operating system and added features that are similar to the iPhone, which is something customers have wanted. But Google did more than just add features to compete with the iPhone, Google took everything that was good about the Android and made it better. Now it looks like Apple may, once again, have competition in the smartphone industry that is too much to handle.

## Apple's Iron Fist

The iPhone has great features like allowing families to share applications and offering a high quality camera in a phone format.

But Apple has, from day one of the iPhone, had an iron fist about allowing users to do whatever they want with their phones. Apple constantly forces users to use its iCloud service for storing photos and videos, and it is impossible to do anything on the iPhone without first getting Apple's approval by entering your password. Android users who switched to iPhones found the constant need to enter their password annoying, and they were also turned off by the inability to personalize an iPhone without paying a lot of money. Almost every iPhone app costs something, and the selection of apps for the iPhone is small compared to the Android system.

## ***A New Dream of Politics*** **A Poem by Ben Okri**

**T**hey say there is only one way for politics.  
That it looks with hard eyes at the hard world  
And shapes it with a ruler's edge,  
Measuring what is possible against  
Acclaim, support, and votes.

They say there is only one way to dream  
For the people, to give them not what they need  
But food for their fears.  
We measure the deeds of politicians  
By their time in power.

But in ancient times they had another way.  
They measured greatness by the gold  
Of contentment, by the enduring arts,  
The laughter at the hearths,  
The length of silence when the bards  
Told of what was done by those who  
Had the courage to make their lands  
Happy, away from war, spreading justice  
And fostering health,  
The most precious of the arts  
Of governance.

But we live in times that have lost  
This tough art of dreaming  
The best for its people,  
Or so we are told by cynics  
And doomsayers who see the end  
Of time in blood-red moons.

Always when least expected an unexpected  
Figure rises when dreams here have  
Become like ashes. But when the light.  
Is woken in our hearts after the long  
Sleep, they wonder if it is a fable.

Can we still seek the lost angels  
Of our better natures?  
Can we still wish and will  
For poverty's death and a newer way  
To undo war, and find peace in the labyrinth  
Of the Middle East, and prosperity  
In Africa as the true way  
To end the feared tide of immigration?

We dream of a new politics  
That will renew the world  
Under their weary suspicious gaze.  
There's always a new way,  
A better way that's not been tried before.
